

This month the Kern High School District would like to highlight student work aligned with Black History Month. Students may share artwork, videos of themselves engaging in cooking or displaying art. All students are also encouraged to participate and share what celebrating diversity means to them and/or how they have been influenced by African American culture.

Black History month is from February 1 through February 28th, we are asking student work to be submitted as soon as possible. The submission window will close on February 18th, 2022 so that we have enough time to edit and/or organize for the website. Students we love to see you in action take a look at the following ways you can showcase your choice of work. I look forward to viewing them.
